Safety Notes:
The DVD video display of the in-dash unit will not operate while the vehicle is moving. This is a safety feature to prevent driver distraction. In-dash DVD video functions will only operate when vehicle is in Park and the parking brake is engaged. It is illegal in most states for the driver to view video while the vehicle is in motion.

Upon installation of this Monitor/DVD player ("unit") into a vehicle, the driver of the vehicle must not operate this unit by watching videos or playing video games while driving. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.

Several states prohibit the installation of monitors/DVD players if the screen is visible from the driver’s seat. If you reside in a jurisdiction which has enacted such a law, this unit must not be installed so that the screen is visible from the driver’s seat. When installing this unit in the front console/dashboard, the unit must be positioned so that it is facing the front passenger seat only. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.

This unit is designed so that it may be operated only when the vehicle is in “Park” and the parking brake is fully engaged. To this end, this unit includes a parking brake lock-out feature which prohibits the unit from operating if the vehicle is not in “Park” and/or the parking brake is not fully engaged. When installing this unit, the installer must connect the parking brake detect wire to the parking brake mechanism in order to make the parking brake lock-out feature operable. DO NOT simply ground the parking brake detect wire to a metal portion of the vehicle. Failure to properly install the parking brake lock-out feature could lead to driver distraction which could result in serious injury or death to the driver’s occupants or persons outside the vehicle and/or property damage.

Once the parking brake lock-out feature is installed, the owner/user must not attempt to disrupt/neutralize the parking brake lock-out feature by (a) partially engaging the parking brake and/or (b) purchasing/using any device or unit designed to send necessary brake signals to the unit. Failure to follow these instructions could lead to driver distraction which could result in serious injury or death to the driver’s occupants or persons outside the vehicle and/or property damage.

When operating this unit, keep the unit’s volume level low enough so that the vehicle’s occupants can hear traffic-related sounds such as police and emergency vehicles. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.
Please read all instructions carefully before attempting to install or operate.

Due to its technical nature, it is highly recommended that your DUAL DV605 is installed by a professional installer or an authorized dealer. This product is only for use in vehicles with 12VDC negative ground only.

To prevent damage or injury:

- Make sure to ground the unit securely to the vehicle chassis ground.
- Do not remove the top or bottom covers of the unit.
- Do not install the unit in a spot exposed to direct sunlight or excessive heat or the possibility of water splashing.
- Do not subject the unit to excessive shock.
- When replacing a fuse, only use a new one with the prescribed rating. Using a fuse with the wrong rating may cause the unit to malfunction.
- To prevent short circuits when replacing a fuse, disconnect the wiring harness first.
- Use only the provided hardware and wire harness.
- You cannot view video while the vehicle is moving. Find a safe place to park and engage the parking brake.
- If you experience problems during installation, consult your nearest DUAL dealer.
- If the unit malfunctions, reset the unit as described on page 10 first. If the problem still persists, consult your nearest DUAL dealer or call tech assistance @ 1-866-382-5476.
- To clean the monitor, wipe only with a dry silicone cloth or soft cloth. Do not use a stiff cloth, or volatile solvents such as paint thinner and alcohol. They can scratch the surface of the panel and/or remove the printing.
- When the temperature of the unit falls (as in winter), the liquid crystal inside the screen will become darker than usual. Normal brightness will return after using the monitor for a while.
- When extending the ignition, battery or ground cables, make sure to use automotive-grade cables or other cables with an area of 0.75mm (AWG 18) or more to prevent voltage drops.
- Do not touch the liquid crystal fluid if the LCD is damaged or broken. The liquid crystal fluid may be hazardous to your health or fatal. If the liquid crystal fluid from the LCD contacts your body or clothing, wash it off with soap immediately.

FCC Compliance

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
Preparation

Before You Start

- Disconnect negative battery terminal. Consult a qualified technician for instructions.

- Avoid installing the unit where it would be subject to high temperatures, such as from direct sunlight, or where it would be subject to dust, dirt or excessive vibration.

![Fig 1](image1.png) Insert the head unit into the installation kit

![Fig 2](image2.png) Once the unit is inserted into the kit, secure the head unit with the supplied screws

![Fig 3](image3.png) Attach the trim ring after installation

![Fig 4](image4.png) In some vehicles, remove the factory brackets from the stock head unit and use for installation, this is for vehicles that do not need an installation kit
**Note:**
When replacing a fuse, make sure to use the correct type and amperage. Using an incorrect fuse could cause damage. The unit uses (1) 15 amp ATM mini style fuse located inside the in-line filter box.

**Wiring Notes:**

Subwoofer output
The Subwoofer preamp audio output (black jacket with green RCA) is active in all audio modes.

Rear camera input
A rear view camera (not included) can be used with the Camera input.

Remote Control Preparation

Remove battery insulation tape.

To insert or replace the battery, remove the battery holder.

Remove the battery from the battery holder.

Install the new battery. Make sure to keep the (+) side up.

Insert the battery holder.

Notes:
- The remote control uses one 3 volt Lithium CR2025 battery. Remove the battery if the remote will not be used for a month or longer.
- Remove and dispose of battery properly.
- Do not store battery with metallic objects or materials.
General Operation

Installing the Faceplate  
Align the faceplate with the front of the unit, then snap in place beginning with the left side.

Power On/Off  
Momentarily press \( \bigcirc \) to turn the unit on or off.

Volume  
Rotate the volume knob to increase or decrease the volume level.

Mute  
Momentarily press MUTE to silence the audio. Momentarily press MUTE again to return to the previously selected volume. Rotating the volume knob while the volume is muted will also cancel the mute function.

Mode  
Press MODE to step through all available input modes: Radio, Disc (which includes DVD and CD playback), USB, Camera, Hands Free and AV In. Modes of operation are indicated on the display and/or the monitor. USB flash drive must be connected/inserted to appear in the mode selection string.

Auxiliary Input  
Connect external audio/video devices to the 3.5mm auxiliary input on the front panel.

USB Port  
Connect a USB device to play MP3/WMA files or view AVI, MP4 video files or JPG photos.

Main Menu  
From any operational mode, press the house icon in the top left corner to access the Main Menu screen.

1. Put the monitor into standby mode.
2. Eject the disc.
3. Set up steering wheel controls (view Steering Wheel Controls insert included with the unit for details).
From the Main Menu screen, press SETUP in the bottom right corner to access the Setup menu and select from six categories across the bottom: General, Time, Video, Language, Illumination and Calibration.

**General**:
- **Animation** - Select Off, 10 second, 30 second, 1 minute, 90 second, 2 minute, 3 minute or 4 minute to set animation length.
- **Key Beep** - Select a OFF or ON to select whether or not the unit beeps each time a key is pressed.
- **Disc** - Adjust the following disc options:
  - **Format** - Select NTSC, PAL or AUTO.
  - **TV Type** - Select 4:3PS, 4:3 LB or 16:9.
  - **Rating** - Select desired rating.
- **Radio** - Adjust the following radio options:
  - Select between STEREO or MONO operation.
  - Select between LOCAL or DX (distance) tuning.
  - Select between the following region settings: EUROPE, USA, AMERICAN1, AMERICAN2 and OIRT.
  - Select between RDS Regional ON or OFF.
  - Select between RDS PI MUTE or SOUND.
  - Select between RDS TA OFF or ON.
  - Select between RDS AF OFF or ON.
- **Wallpaper** - Select from three different wallpaper options.
- **Camera Icon** - Turn the camera icon ON or OFF on the Source Menu.
- **Bluetooth** - Adjust the following Bluetooth options:
  - Turn Bluetooth On or OFF.
  - Turn Auto Answer feature On or OFF to determine whether or not the unit will automatically answer incoming calls.
  - Turn Auto Connect feature On or OFF to determine whether or not the unit will automatically connect to available devices.
  - Turn Auto Download feature On or OFF.
- **Dimmer** - Adjust the dimmer levels between 1 and 6, or turn the dimmer OFF. Dimmer can also be adjusted by tapping the dimmer icon on the LCD.
- **Demo** - Turn Demo mode OFF or ON.
- **About** - Select to view information about the unit.
General Operation

Setup Menu

Time:
- **Hour** - Press < or > to adjust the hour down or up.
- **Minute** - Press < or > to adjust the minutes down or up.
- **Format** - Select between a 12HR or 24HR clock display.
- **AM/PM** - Select between AM and PM for current clock time.

Video:
- **Color** - Drag to adjust between -20 and 20.
- **Brightness** - Drag to adjust between -20 and 20.
- **Contrast** - Drag to adjust between -20 and 20.
- **Tint** - Drag to adjust between -20 and 20.

Language:
- **English** - Set the unit language to English.

RGB Illumination:
- **Red/Green/Blue** - Drag each level to manually adjust the unit’s illumination color.
- **Color Selector** - Use the color selector at the bottom of the screen to select the unit’s illumination color.
- **Auto Color** - Select this option to restore automatic color settings.

Calibration:
- **Calibrate the Screen** - Press YES to calibration the touch screen.

Reset

To resolve abnormal operation or if the unit is inoperable, use the tip of a pen to press the **RESET** button (located in the bottom left corner). The unit will reset the main processor to the default settings.
Radio Operation

Main Menu  Select the Radio icon from the Main Menu screen.

Current Mode Indicator  Press to return to Main Menu screen.

Tune Frequency Down  Displays current mode of operation.

Tune Frequency Up  Press << to tune radio to a lower frequency. Press < to tune the unit down one step at a time.

Hands Free  Press >> to tune radio to a higher frequency. Press > to tune the unit up one step at a time.

Camera  Press to access the Phone through the Hands Free auxiliary input.

Previous Options  Press to access the Camera when the camera function is enabled.

Preset Stations  Press to see the previous screen of options.

Press to display the six preset stations stored in memory in the current band. To store a preset station, tune unit to desired station, then press and hold the desired preset button to store the current station in that preset spot. Up to 18 FM and 12 AM stations can be stored in memory. Momentarily press any preset station to play it instantly. (Preset station display is pictured on the following page.)

Mute  Press to mute the unit’s sound. Press again to unmute, or sound can be restored by adjusting the volume knob of the front panel.
AM/FM/RDS Tuner Operation

Press to adjust the following Audio options:

- **EQ** - Select from the preset EQ options: JAZZ, CLASSIC, POP, ROCK, BEAT OR FLAT, or select USER to manually adjust Bass, Middle and Treble options between -7 and 7.

- **Fader/Balance** - Drag to adjust Fader options between 10F (front) and 10R (rear) and Balance options between 10L (left) and 10R (right).

- **Subwoofer/Loudness**
  - Adjust subwoofer volume from 1-12, or turn subwoofer OFF.
  - Select between OFF, LOW or HIGH loudness levels.

- **ASP**
  - Bass Center Frequency: 60Hz, 80Hz, 100Hz or 200Hz.
  - Bass Q Value: 1.0, 1.25, 1.5 or 2.0.
  - Middle Center Frequency: 500Hz, 1 kHz, 1.5kHz or 2.5kHz.
  - Middle Q Value: 0.5, 0.75, 1.0 or 1.25.
  - Treble Center Frequency: 10kHz, 12.5kHz, 15kHz, 17.5kHz.
  - Loudness Center Frequency: FLAT, 400Hz, 800Hz, 2400Hz.
  - Subwoofer Center Frequency: FLAT, 80Hz, 120Hz, 160Hz.
Automatically Store / Preset Scan

Band

Next Options

Local / Distance

Press to scan preset stations and listen to the first 10 seconds of each. Press again to stop scanning and listen to the station. Press and hold to automatically find and store the strongest stations as presets.

Press to select between two AM and three FM bands.

Press to see the next screen of options.

Press to toggle between LOCAL and DX (distance) tuning.
CD/USB Operation

To play audio files from a disc or MP3/WMA files from a disc or USB device, insert disc or device and playback will begin automatically. To return to disc or USB playback from another mode of operation, select the corresponding icon from the Main Menu.

- **Disc Playback** - Insert disc into the slot, and playback will begin automatically.
- **USB Playback** - Insert a USB device into the USB slot on the side of the unit.

**Main Menu**

1. **Press to return to Main Menu screen.**
2. **Current Mode Indicator**
   - Displays current mode of operation.
3. **Repeat**
   - Press to select a repeat option: Repeat 1, Repeat Folder or Repeat Off.
4. **Random**
   - Press to enable or disable random playback.
5. **Hands Free**
   - Press to access the Phone through the Hands Free auxiliary input.
6. **Direct File Access**
   - Press to access the directory of folders and files. Use the up/down arrows to scroll through the folder list, then press on the name of the desired folder to access it. Use the up/down arrows to scroll through the file list, then press on the name of the desired file to access it.

The default display will show Music files. Select the Photo or Video icons at the bottom of the screen to display those files instead.
**Camera**
Press to access the Camera when the camera function is enabled.

**Mute**
Press to mute the unit’s sound. Press again to unmute, or sound can be restored by adjusting the volume knob of the front panel.

**Previous File/Track**
Press to go back to the previous file or track.

**Audio**
Press to adjust Audio options (refer to page 13 for details).

**Play / Pause**
Press to pause or resume playback.

**Backward**
Press to fast reverse the current track at various speeds: FRx2, FRx4, FRx8 or FRx20.

**Next File/Track**
Press to advance to the next file or track.

**Forward**
Press to fast forward the current track at various speeds: FRx2, FRx4, FRx8 or FRx20.

**Notes:**
- It is not possible to view JPG files on the in-dash monitor while the vehicle is moving. This is a safety feature to prevent driver distraction.
- The JPG image viewer function will only operate when vehicle is in park and the parking brake is engaged as described on page 26.
Media Compatibility

The following types of discs/files are compatible:

- DVD Video, DVD+R/RW, DVD-R/RW
- AVI - Max video resolution: 720x480, Max video bit rate: 5000 kbps
- Mpeg2: Max video resolution: 720x480, Max video bit rate: 5000 kbps
- Mpeg4: Max video resolution: 720x480, Max video bit rate: 5000 kbps
- DivX/Xvid: Max video resolution: 720x480, Max video bit rate: 5000 kbps
- SD/USB format type: FAT32/FAT

The following types of discs/files are not compatible:

- WMA files that are protected by DRM (Digital Rights Management)
- WMA lossless format
- Discs recorded with Track At Once or packet writing
- MP3 PRO format, MP3 playlists
- RMP format
- WAV format
- WMV format
- AAC, protected AAC, M4A format

Some recordable DVD’s and CD’s may be incompatible with this unit, depending on media type and recording method.

Playback Order

MP3/WMA playback sequence begins in the root folder of the disc or USB flash drive. Any empty folders or folders that do not include MP3/WMA/JPG files are skipped.

Compatible Recording Formats

ISO9660 standards:

- Maximum nested folder depth is 8 (including the root folder).
- Valid characters for folder/file names are letters A-Z (all caps), numbers 0-9, and "_" (underscore). Some characters may not be displayed correctly, depending on the character type.
- This device can play back discs in Joliet and other standards that conform to ISO9660. MP3/WMA written in the formats other than the above may not play and/or their file names or folder names may not be displayed properly.

Notes

Some files may not play or be displayed correctly, depending on sampling rates and bit rates.

For best results, use the following settings when ripping MP3 files:
128kbps or higher constant bit rate
44.1kHz or higher sampling frequency

For best results, use the following settings when ripping WMA files:
64kbps or higher constant bit rate
44.1kHz or higher sampling frequency
Upon installation of this Monitor/DVD player ("unit") into a vehicle, the driver of the vehicle must not operate this unit by watching videos or playing video games while driving. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.

Several states prohibit the installation of monitors/DVD players if the screen is visible from the driver’s seat. If you reside in a jurisdiction which has enacted such a law, this unit must not be installed so that the screen is visible from the driver’s seat. When installing this unit in the front console/dashboard, the unit must be positioned so that it is facing the front passenger seat only. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.

This unit is designed so that it may be operated only when the vehicle is in “Park” and the parking brake is fully engaged. To this end, this unit includes a parking brake lock-out feature which prohibits the unit from operating if the vehicle is not in “Park” and/or the parking brake is not fully engaged. When installing this unit, the installer must connect the parking brake detect wire to the parking brake mechanism in order to make the parking brake lock-out feature operable. DO NOT simply ground the parking brake detect wire to a metal portion of the vehicle. Failure to properly install the parking brake lock-out feature could lead to driver distraction which could result in serious injury or death to the driver’s occupants or persons outside the vehicle and/or property damage.

Once the parking brake lock-out feature is installed, the owner/user must not attempt to disrupt/neutralize the parking brake lock-out feature by (a) partially engaging the parking brake and/or (b) purchasing/using any device or unit designed to send necessary brake signals to the unit. Failure to follow these instructions could lead to driver distraction which could result in serious injury or death to the driver’s occupants or persons outside the vehicle and/or property damage.

When operating this unit, keep the unit’s volume level low enough so that the vehicle’s occupants can hear traffic-related sounds such as police and emergency vehicles. Failure to follow this instruction could lead to driver distraction which could result in serious injury or death to the vehicle’s occupants or persons outside the vehicle and/or property damage.
Inserting a Disc
Insert disc into the slot, and playback will begin automatically. Sub-menus may have to be pressed to access the DVD content. Read the directions of your specific DVD disc for other features.

Ejecting the Disc
Press ▲ to eject the disc.

Touchscreen Controls
Press anywhere on the LCD to display touch screen controls.

Main Menu
Press to return to Main Menu screen.

Direct Title Access
Press to directly select a chapter or title if allowed by current disc.

Direct Chapter Access
Press and use the keypad to directly select a specific chapter.

DVD Menu
Press to return to the DVD menu.

Additional Options
Press to reveal additional DVD options:
- Subtitles - Select between subtitle options English and Off.
- Language - Select playback language (if allowed by disc).
- Angle - Select desired playback angle (if allowed by disc).

Elapsed Time
Displays elapsed time and time remaining on the DVD.

Mute
Press to mute the unit’s sound. Press again to unmute, or sound can be restored by adjusting the volume knob of the front panel.

Previous Chapter
Press to return to the previous chapter on the DVD.

Play / Pause
Press to play or pause DVD playback.
Next Chapter 10  Press to advance to the next chapter.

Fast Reverse 11  Press to fast reverse playback at various speeds: FRx2, FRx4, FRx8 or FRx20.

Fast Forward 12  Press to fast forward playback at various speeds: FRx2, FRx4, FRx8 or FRx20.

Repeat 13  Press to select from the following repeat options: Repeat Chapter, Repeat Title, Repeat All or Repeat Off.

Random 14  Press Random to play chapters in random order or Random Off to play disc in order.

Hands Free 15  Press to access the Phone through the Hands Free auxiliary input.

Previous Options 16  Press to view the previous option screen.

- **LONG PRESS**

- **RESET**
Front 3.5mm Aux Input & Rear RCA A/V Input

**Auxiliary Input**
- Connect an optional audio source into the 3.5mm (front panel) input.
- Select auxiliary input from the Main Menu to listen to audio.
- Adjust volume on the external audio source as needed (if connected to the headphone output of the device).

**Using AV Input**
- Connect an optional audio/video source to the rear auxiliary input (Red/White/Yellow RCA connectors). Refer to page 6 for details.
- Select AV Input from the Main Menu to listen to audio.
- Engage parking brake to watch video.

Rear Camera Operation - (Optional)

**Using Rear Camera**
- Connect an optional rear camera to the Camera Input (Black RCA connector). Refer to the wiring diagram for details.
- Manual selection - Touch CAMERA icon from the Main Menu or from any operational mode (when enabled) to select camera mode. Touch the top left area on the screen to exit camera mode.
- **Note:** The manual mode is for dedicated cameras that are ALWAYS on while driving. It is not meant for cameras that are connected to the vehicle’s reverse light.

**Auto Selection**
- The unit will automatically select camera mode when connected to the reverse lamp circuitry.
- **Note:** The external video output is not active when using the rear camera input.
Limited One Year Warranty

This warranty gives you specific legal rights. You may also have other rights which vary from state to state.

Dual Electronics Corp. warrants this product to the original purchaser to be free from defects in material and workmanship for a period of one year from the date of the original purchase.

Dual Electronics Corp. agrees, at our option, during the warranty period, to repair any defect in material or workmanship or to furnish an equal new, renewed or comparable product (whichever is deemed necessary) in exchange without charges, subject to verification of the defect or malfunction and proof of the date of purchase. Subsequent replacement products are warranted for the balance of the original warranty period.

Who is covered? This warranty is extended to the original retail purchaser for products purchased from an authorized Dual dealer and used in the U.S.A.

What is covered? This warranty covers all defects in material and workmanship in this product. The following are not covered: software, installation/removal costs, damage resulting from accident, misuse, abuse, neglect, product modification, improper installation, incorrect line voltage, unauthorized repair or failure to follow instructions supplied with the product, or damage occurring during return shipment of the product. Specific license conditions and copyright notices for the software can be found via www.dualav.com.

What to do?
1. Before you call for service, check the troubleshooting guide in your owner’s manual. A slight adjustment of any custom controls may save you a service call.

2. If you require service during the warranty period, you must carefully pack the product (preferably in the original package) and ship it by prepaid transportation with a copy of the original receipt from the retailer to an authorized service center.

3. Please describe your problem in writing and include your name, a return UPS shipping address (P.O. Box not acceptable), and a daytime phone number with your shipment.

4. For more information and for the location of the nearest authorized service center please contact us by one of the following methods:

   • Call us toll-free at 1-866-382-5476
   • E-mail us at cs@dualav.com

Exclusion of Certain Damages: This warranty is exclusive and in lieu of any and all other warranties, expressed or implied, including without limitation the implied warranties of merchantability and fitness for a particular purpose and any obligation, liability, right, claim or remedy in contract or tort, whether or not arising from the company’s negligence, actual or imputed. No person or representative is authorized to assume for the company any other liability in connection with the sale of this product. In no event shall the company be liable for indirect, incidental or consequential damages.
## Specifications

| Disc | Frequency response: **20Hz-20kHz**  
|      | Channel separation @ 1kHz: **>80dB**  
|      | D/A converter: **24 Bit**  
| FM Tuner | Tuning range: **87.5MHz-107.9MHz**  
|      | Usable sensitivity: **10dBf**  
|      | 50dB quieting sensitivity: **20dBf**  
|      | Stereo separation @ 1kHz: **38dB**  
|      | Frequency response: **30Hz-13kHz**  
| AM Tuner | Tuning range: **530kHz-1710kHz**  
|      | Usable sensitivity: **24uV**  
|      | Frequency response: **30Hz-2.3kHz**  
| Front USB | Compatibility: **High Speed USB 2.0**  
|      | USB Class: **Mass storage class**  
| Monitor | Panel size: **6.2” diagonal measurement**  
|      | View angle (up/down/left/right): **50/70/70/70**  
|      | Resolution: **800 (H) x 480 (V)**  
|      | Brightness (cd/m²): **250**  
|      | Contrast ratio: **500:1**  
|      | Pixels: **1,152,000**  
| General | Speaker output impedance: **4 ohms**  
|      | Line output voltage: **4 volt RMS**  
|      | Line output impedance: **200 ohms**  
|      | Chassis dimensions: **7” x 7” x 4” (W x D x H)**  

Design and specifications subject to change without notice.
