

SOLIDE ONE

GERMAN HI-FI HERITAGE. BUILT FOR TODAY'S TV.

Sleek German design, four-speaker sound and the Dual turntable legacy in one compact soundbar.

BUILT IN GERMANY. DESIGNED WITH THE SAME PRECISION THAT MADE DUAL TURNTABLES A HI-FI ICON.

BUILT IN GERMANY • GERMAN ENGINEERING

DESIGN

Sleek German design

A seamless wraparound fabric grille, softly rounded end caps and clean, minimal detail. Understated enough for any room, refined enough to get noticed.

SOUND

Four speakers. Full, rich sound

Two full-range drivers for rich dialogue and music, complemented by two built-in bass drivers with optimized sound chambers - full, rich sound in one compact soundbar.

HERITAGE

German turntable heritage since 1949

For anyone who thinks turntables are still cool and remembers hearing their first vinyl record. Dual led the turntable market with German engineering, and this soundbar was developed with that heritage in mind.

A premium step-up from the typical black soundbar. Built in Germany, backed by a hi-fi brand customers remember, and designed to stand out on the shelf and in the living room.

For people who still love vinyl, want their room to look as good as it sounds, and are ready for more than a black plastic bar.

1. **Built in Germany - a story no commodity soundbar can tell.**
2. **Sleek design that looks at home in any room.**
3. **A hi-fi brand with turntable heritage customers remember**
